THIS YOUNG

Tells Childless Women What Lydia E.Pinkham's Vegetable Compound Did for Her

medicine. We are very fond of children and for a considerable time after we married I feared I would not have any owing to my weak condition. I bogan taking Ly dia E. Pink ha m's Vegetable Compound and now I have a nice streng healthy buby girl. I can honestly say that I did not suffer much more when my haby was bern than I used to suffer with my periods before I took Lydia E. Finkham's Vegetable Compound years ago. I give all the credit to your medicine and shall always recommend it very highly."—Mrs. H. H. Janssen, Milkson, Wisconsin.

How can women who are weak and sickly expect or hope to become mothers of healthy children? Their first duty is to themselves. They should overcome the derangement or debility that is dragging them down, and strengthen the entire system, as did Mrs. Janssen, by taking Lydia E. Pinkham's Vegetable Compound and then they will be in a position to give their children the blessing of a good constitution.

For your health's sake you should immediately correct any irregu-larity of the Bowels by taking DR. TUTT'S LIVER PILLS. DR. TOTT'S LIVER PILLS.
If your Bowels are not working
properly you cannot expect to
keep fit. Take one or two at bedtime. Get right and keep right.

Once Navigable Stream Reduced to Rocks and Pools.

Fishermen Gather Big Catches In Streamlets Where Once Angry Torrents Raged.

Sault Ste. Marie, Mich.-Modern endiscering has broken the prestige of the old-time Soo rapids, reducing to rocks and shallow pools a stream which, in the days before the civil war, schooners plied with no fear of hirring bottom.

Completion of the last of the compensating dams above the rapids has brought to the surface mossiched rocks. hidden for centuries, and it is now possible to wade across a space where, in 1852, there was a stream of such respeciable volume that the sailing schooner Uncle Sam passed easily.

Capitulation of the rapids, which has drawn nearer and nearer during at the rate of one a week.

seventy years, reached its eitmax with startling quickness recently when within an lour after the closing of the dam, the rapids became guant rock and disconsolate rivalets.

The scent of fish and mass filled the air. In pools were some anwary creatures of the water who had not fied in time, and angiers hastened for their Most of the fich in the rapids had taken refuge in the lower river as the water recoded.

But the passing of the rapids brings some lay, for follormen believe the remaining pools, some of them several feet deep, will attract the rainbow and speckied front, and that these will be more easily snared.

Dams above the rapids were con structed to regulate the depth of Luke Saperior and to obtain a steady drift of water in the tocks.

The elder Dumns, in one phenomenal year, actually turned out volumes
